2017 TO 2018

Meet 11 Young Women Artists

Courtesy: WADE Asia 2017

Award Winning Projects

from World Architecture Festival

Khushboo VYAS, Ahmedabad

Shortlisted:
WADe Artist Category 2017

Khushboo is an architect by profession, worked as an artist intern at Artist Anilaben Vadgama from 2009 – 2012.

She specializes in Monoprinting which is a method of print making with single impression from a reprintable block. Materials used in the process are – cartridge paper, metal plate, gum arabic, etching tools, painting knives, paint brush, water colours, rollers and newspapers paper.

WADe Experience

“I think the Wade Asia initiative can develop into a very significant forum for designers. It was great to see so many voices & practices together. Personally for me the interactions were very energizing. Seeing other women practitioners, knowing about their challenges and the efforts they’re making has motivated me to go deeper into my work and push the envelope. Having said that, I’d also be looking forward to more critical discourse & better curation of the event in the coming year. Kudos and keep it going!”

SWASHBUCKLE

Material Description

Size: 18cmx18cm

Medium: Monoprint - water colour on paper

Suspended forms, exuding a molten glow create a moment of stillness amidst massive action against a tumultuous background & describe the moment before doom.

NAINSUKH'S DREAM ▲

Material Description: **Size:** 19cmx24cm

Medium: Monoprint - water colour on paper

The mad intertwining, the cosmic dance has begun; all friends, birds, animals have come to the party. Flying elephants desire to match the concubine's graceful moves.
